Abstract

This study aimed to develop a system entitled General Education i-Knowledge of President Ramon Magsaysay State University Masinloc Campus which was evaluated by the respondents in terms of acceptability and software quality. The researchers made used descriptive research and utilized questionnaire as the main instrument to gather the necessary information. Statistical Tools like Percentage, Weighted Mean, ANOVA and Likert Scale were the means to arrive at the summary, conclusion and recommendations of this study.

The researchers concluded that the Respondents' Evaluation on the Level of System Quality of the General Education i-Knowledge system is interpreted as Excellent. The Respondents' Perception on the Level of Acceptability of the General Education i-Knowledge System is interpreted as Very Acceptable. There is no significant difference on the respondents' evaluation on the level of system quality of the General Education i-Knowledge System for President Ramon Magsaysay State University-Masinloc Campus (Masinloc, Zambales) in terms of Functional Suitability, Performance Efficiency, Compatibility, Usability, Reliability, Security, Maintainability and Portability.

In the light of the findings and conclusion of this study, the researchers would like to offer the following recommendation: The study may be improved by the future researchers to widen its scope. The General Education i-Knowledge System should be implemented to the President Ramon Magsaysay State University Masinloc-Campus.

The researchers recommend that the President Ramon Magsaysay State University- Masinloc Campus should be use this system to enhance knowledge.
