COLLEGE OF COMMUNICATION AND INFORMATION TECHNOLOGY

**CERTIFICATION**

This Thesis entitled "**MANEHERO DRIVER'S GUIDE FOR ROAD SAFETY**" Prepared and submitted by Sarah Mae E. Molino, Mark Gelo S. Grey and Kent Russel H. Marzo in partial fulfillment of the requirements for the degree of **Bachelor of Science in Information Technology**, has been examined and recommended for Oral examination.

  
**JASON S. ARTATES**

Adviser

**APPROVAL SHEET**

Approved by the **PANEL OF EXAMINERS** on Oral Examination on April 29, 2019 with a grade of \_\_\_\_\_

  
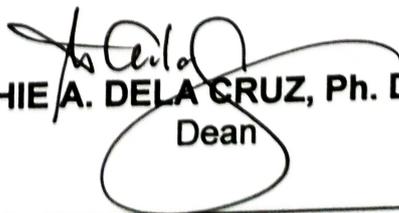

**ISRAEL M. CABASUG, MSCS**  
Chairman

  
**DARYL JOHN C. RAGADIO**  
Member

  
**WALTER G. LARA**  
Member

Accepted as partial fulfillment of the requirements for the degree  
**BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY**

Dean

### ABSTRACT

The aim of the study is to develop mobile application which is an e-learning games entitled Manehero Driver's Guide for Road Safety, it is a driver's simulation game and can show difference significance and meaning of road signs. The main objective of the study is to help the driver's and the people who is willing to learn how to drive to know the meanings of the road signs. This can help the user entertained and educated at the same time. This study attempted to answer the following questions: How is the PRMSU student and employee describe the software quality of Manehero Driver's Guide for Road Safety in terms of: Compatibility, Functionality Suitability, Maintainability, Performance efficiency, Portability, Reliability, Security and Usability and How is the PRMSU student and employee describe the level of acceptability of the Manehero Driver's Guide for Road Safety as to: Functionality and Performance. The descriptive method of research was used in this study. The PRMSU student and employee's Evaluation in the Software Quality in terms of: Functional Suitability, the proposed game perceived an average weighted mean of 4.31 for students' and 5.00 numerical rating for employee, Performance Efficiency obtained an average weighted mean of 4.25 for students' and 4.50 numerical rating for employee, Compatibility obtained an average weighted mean of 4.50 for students and 4.18 numerical rating for employee. Usability The overall rating of the proposed Manehero Driver's Guide for Road Safety obtained an average

**COLLEGE OF COMMUNICATION AND INFORMATION TECHNOLOGY**

weighted mean of 5.00 for all students and 4.18 numerical rating for all employee. Reliability obtained an average weighted mean of 5.00 for students and 4.29 numerical rating for employee. Security obtained an average weighted mean of 5.00 for students and 4.29 numerical rating for employee. Maintainability obtained an average weighted mean of 5.00 for students and 4.29 numerical rating for employee and Portability obtained an average weighted mean of 4.75 for students and 4.58 numerical rating for employee. Evaluation of the Level of Acceptability of the Manehero Driver's Guide for Road Safety in terms of: Functionality, obtained an average weighted mean of 5.00 for students' and 4.17 numerical rating for employee and Performance, obtained an average weighted mean of 4.26 for students' and 4.50 numerical rating for employee.
